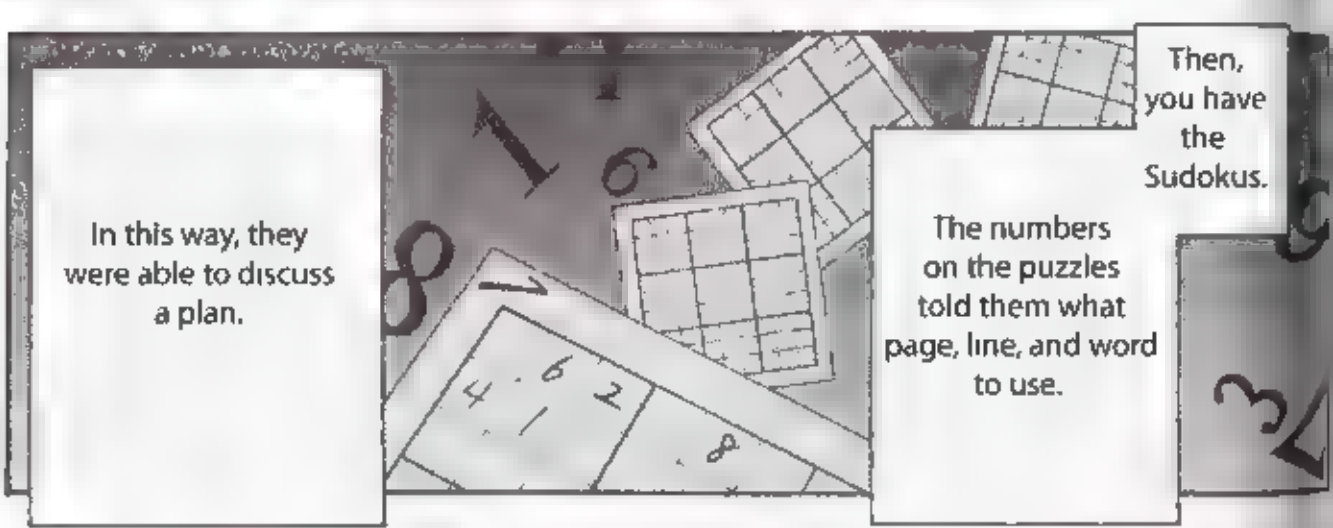
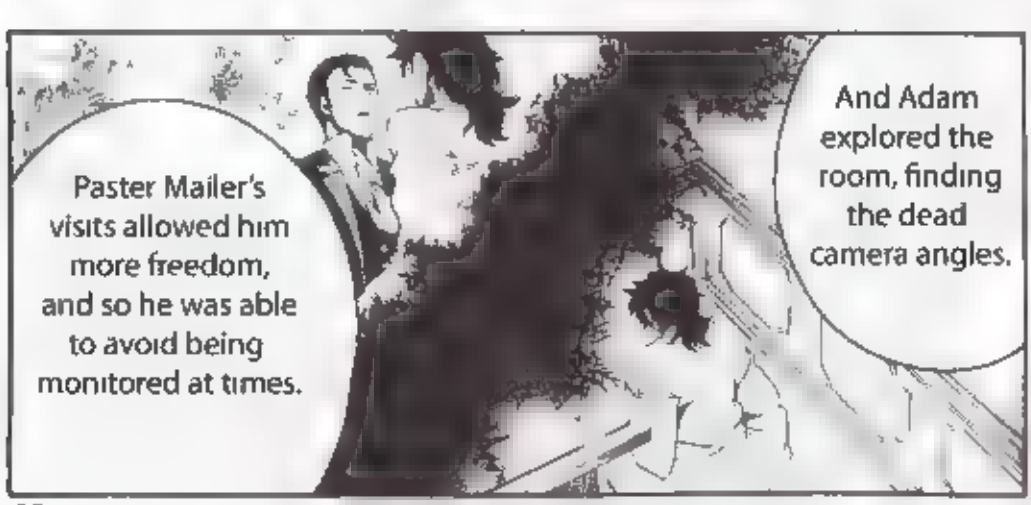
There are nine words in each line, and nine words on each page. And there are nine letter pages.
But all kinds of common, often useful words, were contained in them.
As first, they look like love songs in prose form.



In this way, they were able to discuss a plan.
The numbers on the puzzles told them what page, line, and word to use.
Then, you have the Sudokus.



Paster Mailer's visits allowed him more freedom, and so he was able to avoid being monitored at times.
And Adam explored the room, finding the dead camera angles.

She was able to leave the room and bring information to Adam in cat form.
The cat hid under the sofa, away from the view of the cameras.
Minea
And he was able to make some friends among the other clones, so they could help with the plan.
The secretary was able to use the toy rocket and the smell to cause enough distraction to keep that air vent open.
Raymond
And further used your weakness over lack of blood to make sure you were in the right place at the right time
And Christopher...
You made sure the air vent was open to the outside with your plea that outside air be brought in, to help you avoid your hunger.
Chris
...were able to hide from the cameras so they could change and assume their roles.
The cat and the secretary, when in Adam's room...

Adam and Eve were cast out of Paradise, and Eve gave birth to two sons, Cain and Abel Abel was a shepherd, and Cain was a farmer When it came time to make offerings to the Lord, Cain brought the fruits of his field, and Abel brought the fat portions of some of firstborn of his flock. The Lord looked upon Abel and his offering with favor, but on Cain and his offering, he did not look with favor Cain was very angry, and his face was downcast. Now Cain said to his brother, Abel, "Let us go out into the field" While they were in the field, Cain attacked his brother and killed him

Indeed.
We will free Chris and the others.

Ady will obviously do something.

He expected that I receive protection.
That is why he entrusted me to this renowned house of worship. Why?
What did Charles J. Chrishunds... No...
What did Charles J. Goss expect when he brought you here?
A long time ago, a friend of mine persuaded me to allow some people to take refuge here.
I agreed to this request, for I felt that my friend had proven his trustworthiness, and his cause was worthy of the faith.
But yet...
A moment, please.

You have received new information?
Fill me in please! Sitting in the guest room without any information is driving me crazy.
Chris haunts us for the last week, on television, and in the media.
If you had interpretted that as irresponsibility or infidelity, you would have already tossed me out.
Puuh ...
That's something, at least.
Well, truly you did not know about it.

You should not interfere in the battle between us and his people....
Why did we leave so late in the day?
It is so much harder to find a place to stay.
And it is safer for us to mix with the crowds during the day!

They move in darkness and live on blood.
They are dead, and have renounced aging.
A generation ago...

Persecuted and supressed.
What...

It is time for a new human species, made by the ingestion of Vassalord.
The Noctians.
It is time to let people know of this new life.

Those who have been supressed because of their religion, or race, or their gender will join us first.

It will not be an easy venture.

As far as I know...
...when Alford saved Ady, his condition was that Christopher and Ady would be his to study.
Thus, Christopher may still feel that he hasn't the right to rebel against Alford.
And Ady, if you rush in there and try to free him, you risk being recaptured yourself.
From the view-point of the devil, that's true.

As you know ..

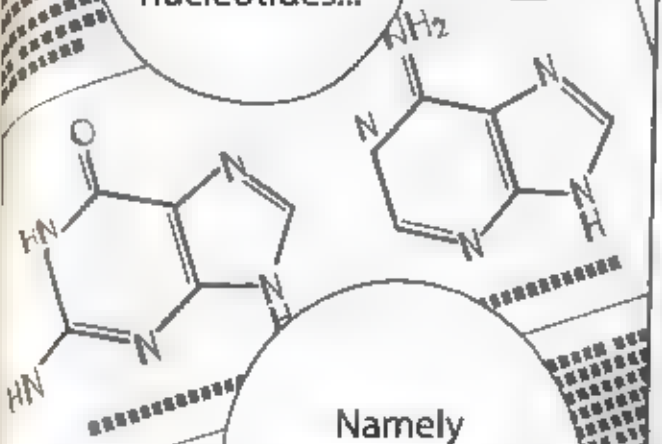
Proteins in living beings are defined by the Deoxyribonucleic acid, or DNA.

The proteins are not formed directly from the DNA, but rather, by copying stretches of DNA into the related nucleic acid RNA in a process called transcription.

This then gives us a usuable blueprint.

Cellular organisms use messenger RNA to convey genetic information.

Like DNA, RNA is assembled as a chain of nucleotides...



Namely guanine, adenine, uracil and cytosine.

These nucleotides regulate gene expression...

A moment please.

My role means that I only guide the movement.

I'd like a simplier explanation.

I am no bio-chemist.

Okay.

In our cells, there exists a gentleman named DNA.
He has a follower named RNA.
But in RNA slumbers a secret power.
For a while, it was thought that RNA actually occupied the master function of the cell.
Mister Alford has developed a new process by which stimulates the RNA...
...and through reverse transcription, carries the desired changes into the DNA.

The cells are given a new sequence for replicating which protects their telomeres.
This allows the chromosomes to replicate without degredation over time.
The cells of the body can replicate indefinitely, without damage. They are, in word, immortal.
But...
...as you know...
A drug that gives enternal youth.
The follower and the Lord, or the Lord and Vassal come together.
Hence, the peculiar name for the drug.
The Vassalord drug also has a big deficit.

The new RNA has problematic characteristics.
Namely, that its functions are disrupted by UV radiation, by heat, and by some specific metal ions, when the cells are exposed.
But worse still...
There are people who can tolerate Vassalord...
...and those who cannot. Is this not so?
NICK
It is impossible, working through a middleman, to do proper RNA and DNA analysis...
...to predict what will happen to people who are given the drug.
There are individuals who do not respond well to the fusion of RNA and DNA.

60 percent of those people given Vassalord passed away within a month.
The bodies were examined, and the results recorded. Then, they were split apart, and frozen.
The task of disposing of them was given to Noctians who had no other skills.
SCHRECK
He means the dead Miranda Seagull...
There are others who did not well tolerate Vassalord...
...but changed.

That is...
what I heard earlier.
Some of those given the drug have changed so dramatically, that they cannot continue to live as people.
Exactly.
If it is necessary...
...this entire place can be destroyed.
Mister Alford keeps those who seem trainable...
...and provides them a habitat in an underground research facility.
There will be no traces left of these nightmares.

You are in Rayon, are you not?
Ascam said you were.
Can you give us permission to enter the villiage?
Schluck
I...
...am sorry, father.
I don't have the authority.
We are just...
...at the entrance of a villiage called Rayon.
The people here say we need a permit to enter the villiage.

I will notify them to let you into the village.
I will also send some tourist information. Wait a moment, please
Apol-ogies.
I am the one who asked the village be guarded.
Please forgive this misunder-standing, Mr. Goss.
Okay...
...thank you.
The guards at the entrance have been notified.
SMILE
Good.

Christopher's father is coming.
Treat him with the utmost courtesy and care.
We limit the tourists who can pass through our historic villiage.
Please forgive us for not letting you in earlier.
Oh, that's all right!
I should have let you know I was coming!
KLACK
Oho! Of all the rock nest villiages in the area, this is one of the nicest!
Wonderful!
The tasteful villas speak of a long history.

That I am also to blame?
So that means...
Oh, yes?
It was I who said I wanted to see the villiages up here. So it's my fault, really.
Is that not so?
Oh, no! Certainly not!
Sophie, please!
BROMM
Oh!
Wait!
Let's go tour the villiage now!
Stop acting offended.

KYAAAH!♡
Why is he wearing a tuxedo...?
How funny...
You are so cool, Rosario!
The visitor's plane continues to circle the villiage.
See if you can get a picture of his face.
Then maybe we can learn his name and identity.

Ciao!
Sophie and Mister Goss...
Am I late?
What a wonder! This is a marvelous place for a private party, yes?
Tony tweeted me about it!
?
No, Rosario! You're not late.
These people have kept us waiting outside for quite some time.

Rosario Provencano.
He is an Italian Multi-millionaire.
Six years ago he inherited a vast family fortune.
Since then, he has not worked and has spent his time traveling the world.
I am interested in this person. I wonder how much he knows?
Later, bring him down here.
Yes, sir.
